

## **Nodular and Diffuse Dermatitis**

---

### **Nodular (granulomatous) dermatitis**

- Tuberculosis
- Leprosy
- Sarcoidosis
- Reactions to foreign materials
- Granuloma annulare
- Necrobiosis lipoidica
- Aspergillosis
- Cryptococcosis

### **Diffuse (interstitial) dermatitis**

#### **1) Neutrophils predominate**

- Sweet's Syndrome
- Leprosy
- Granuloma faciale
- Erythema elevatum diutinum
- Pyoderma gangrenosum
- Aspergillosis

#### **2) Neutrophils and histiocytes predominate**

- Blastomycosis
- Coccidioidomycosis
- Sporotrichosis
